

THE CONFERENCE CONNECTION INC.
Connecting Global Businesses.

The Conference Connection Group, organises high profile international events, specialising in the oil, gas and energy industries. Dedicated to providing an independent platform for business interaction and discussion of leading edge business and industry strategies, it strives to combine excellence and professionalism through linkage with industry, professional and inter-governmental groups worldwide. For a full list of courses, conferences and other activities email info@cconnection.org or visit www.cconnection.org

اينوك
ENOC

The Emirates National Oil Company (ENOC) LLC - ENOC, a wholly owned Dubai Government company, is a leading force for UAE economic diversification with 30 active subsidiaries and joint ventures - many forged with key international organisations. The multi-disciplined group has now evolved to be the reliable and responsible 'Energy Partner of Choice' across numerous upstream and downstream sectors.

Together with its subsidiary - Emirates Petroleum Products Company (EPPCO) LLC - the Group operates the most comprehensive network of service stations in Dubai and the Northern Emirates and terminal facilities. Supporting the oil, chemicals, gas, aviation, shipping, liquid storage, information technology, retail, travel and real estate industries, the group touches almost every facet of the emirate's development and puts its name firmly on the overseas arena.

In line with its business aims and social commitment, ENOC employs a team of qualified, skilled and dedicated staff from the UAE nationals and expatriates. ENOC is also focused on actively promoting the interests of its shareholders through the development of further downstream and upstream activities in the oil and gas sector and beyond to encourage economic diversification of Dubai and the rest of the UAE.

Since its inception, ENOC has been guided by its philosophy of quality and professional management based on modern concepts for commercial success and sustainable growth. Today it is poised to engineer a new and challenging period of growth and diversity.
